### Best Contemporary Restaurant

#### Bizaare Avenue Cafe

A contemporary restaurant is one that speaks to today's tastes without succumbing to yesterday's trends. Bizaare takes that credo seriously. Set on a street filled with antique shops, this retro living-and-dining room

speaks to the comfort of a coffeehouse. But rather than being passé, the place is up-to-the-vintage-minute -- every item is for sale. And we're not talking about your mother's dinette set. We're talking about your great-grandmother's dinette set, ugly when you were a child, cool now that you (and the rest of your social set) are into collecting. While you're at it, you might as well snag some menus too. Surely you'll want to return not just for the latest in estate-sale acquisitions but for those spring rolls, crab cakes, and chicken-artichoke crêpes. Just as it sounds, the fare is light and tasty, ideal for those following the five-small-meals-a-day plan. Dr. Atkins' fans may find this short-on-steak place a bit challenging, but what do they know? They're behind the contemporary times.
